LIEFTHA GUSPHIA HASAZ

DATA ANALYST

Baubau, Southeast Sulawesi, Indonesia | +62 853-4254-7404 | liefta.gusphia@gmail.com | github.com/liftahasaz11

PROFESSIONAL SUMMARY

Data-driven analyst with a Mathematics background and hands-on training in Data Science & Machine Learning (Purwadhika) and Data Analytics (Google, via Coursera). Experienced translating raw data into actionable business insight through EDA, dashboarding, and statistical modeling, built during a Business Analyst internship at Rakamin Academy x Bank Muamalat, where dashboards and SWOT-driven analysis supported a 30% increase in sales performance. Skilled in Python, SQL, Excel, Power BI, Looker Studio, and Tableau, with three independent portfolio projects covering predictive modeling, regression, and marketplace analytics. Strong administrative and organizational foundation from three years in structured office and higher-education environments.

CORE SKILLS

- Data Analysis & Visualization: Exploratory Data Analysis (EDA), Power BI, Looker Studio, Tableau, Streamlit
- Programming & Querying: Python (Pandas, NumPy, Scikit-learn), SQL, statistical software
- Modeling: Regression analysis, classification, hyperparameter tuning, predictive modeling
- Tools & Productivity: Microsoft Excel (advanced/spreadsheet systems), Google Workspace, CRM systems, data entry & document control
- Soft Skills: Business insight communication, stakeholder reporting, project coordination, patience & diplomacy

PORTFOLIO PROJECTS

Bank Marketing Campaign: Precision Targeting Strategy

- Built an end-to-end data science pipeline predicting term deposit subscription from bank marketing campaign data, from EDA through deployment.
- Designed interactive Tableau dashboards to surface customer segments most likely to convert.
- Developed and deployed a machine learning classification model as a Streamlit web application for real-time predictions.

Apartment Price Prediction: Regression Analysis

- Evaluated multiple regression algorithms and performed hyperparameter tuning to build an accurate apartment price valuation model.
- Delivered a reliable, reusable tool for property price estimation based on listing features.

Airbnb Listing Analysis — Bangkok

- Analyzed Airbnb listings performance across neighborhood district, host performance, dynamic pricing, room type, and guest review trends.
- Identified strategic opportunities for revenue optimization and guest satisfaction improvement, presented as a data-driven report.

WORK EXPERIENCE

Business Analyst Intern

Oct 2025 – Nov 2025

Rakamin Academy x Bank Muamalat — Jakarta

- Streamlined data collection processes to improve analysis efficiency and turnaround time.
- Applied statistical software to conduct complex data analysis and developed actionable insights through SWOT analysis.
- Built data visualizations, dashboards, and reports in Looker Studio and Power BI for stakeholder review.
- Analyzed large datasets to generate business intelligence and identified sales trends that supported a 30% increase in sales.

Administrative Assistant
May 2023 – May 2025

BCA Finance — Baubau

- Maintained accurate, audit-ready records through disciplined data entry and document control.
- Prepared regularly scheduled reports for management review and supported top-management decision-making.
- Organized document filing systems and monitored stock levels to prevent office supply shortages.
- Delivered consistent, professional client service, strengthening internal reporting reliability.

Assistant Lecturer
Aug 2021 – Jun 2022

Faculty of Teacher Training and Education — Baubau

- Contributed to research and innovative teaching methods, staying current with education trends.
- Led open discussion sessions and actively contributed insights in departmental meetings.

EDUCATION & CERTIFICATIONS

Data Science & Machine Learning
Aug 2025 – April 2026

Purwadhika Digital School — Jakarta, Indonesia

Certificate of Program Achievement: Data Analytics — Google
Feb 2025 – Apr 2025

Coursera

Bachelor of Mathematics Education: Mathematics
Sep 2018 – Jun 2022

Dayanu Ikhsanuddin University — Baubau, South Sulawesi

ACCOMPLISHMENTS & ACTIVITIES

- Designed a covariance-analysis spreadsheet tool with automatic interpretation for research use; awarded an official intellectual property certificate (2022).
- Top 10 Finalist, Student Essay Writing Competition — Bank Indonesia Sulawesi Region (2021).
- Coordinator, Question Development Team, Kota Kepulauan-level Math Quiz Competition — Mathematics Education Student Association; led event/catering coordination for a major university-level event.

LANGUAGES

- English — Fluent
